PROJECTS

FrameFind

Shooting Location Sharing Application

- FrameFind is a CRUD web app designed to help filmmakers, photographers, and content creators easily discover unique public and private locations for creative projects using React, Node, Express, MongoDB
- With tools to create, read, update, and delete entries, it streamlines the scouting process, allowing users to focus on their work instead of lengthy searches

GameForge

Game Application

- GameForge is a fun and interactive gaming website featuring three classic games— Flappy Bird, Rock Paper Scissors, and Snake Feeding—all built using HTML, CSS, and JavaScript
- Offers simple yet addictive gameplay that anyone can enjoy
